

KT Favorites Backgrounds

Kansas Troubles Quilters

A lovely, warm background fabric can set the tone for your quilt, but those fabrics are usually the first to sell out at your favorite shop. Here's a collection of ten of my favorite backgrounds in shades of cream and tan that blend with all of my KT lines. Each piece stands alone as a background or sashing option, but I also love the unique, subtle color gradations when used together in these projects. Comfy Stars is the perfect quilt to layer on a bed with a colorful quilt for the season draped over the end. Make one of the classic Mini Charm quilts as a neutral background for a lovely tabletop vignette. Use these ten fabrics together or individually for a calming addition to your quilts. -Lynne
