

meadowmere

BY GINGERBEE

Let's go for a walk through the meadow together. You might see a grasshopper jumping from blade to blade. You might notice some mushrooms sprouting under an old willow tree. Look! A butterfly resting its wings. Welcome to Meadowmere. This fabric collection is a magical mix of flowers, winged creatures, and the essence of a meadow full of new life. With metallic gold details, my favorite floral illustrations, and my more special panel illustrations featuring quotes from my favorite poets and authors, this thoughtful followup to "Dwell in Possibility" will inspire you to walk outside, close your eyes, take a deep breath, and appreciate the pure imagination and exhilaration of this magnificent world we live in.
